

**WORKING MOSQUITO CONTROL AGREEMENT**  
**BETWEEN THE MARIN/SONOMA MOSQUITO & VECTOR CONTROL DISTRICT**  
**and THE BOLINAS COMMUNITY PUBLIC UTILITY DISTRICT**

This agreement is made on April 12, 2006 between the Marin/Sonoma Mosquito and Vector Control District (hereafter referred to as MSMVCD) and the Bolinas Community Public Utility District (hereafter referred to as BCPUD).

**BCPUD and the MSMVCD agree to the following protocols to be used in areas of West Marin annexed in 2004, for a one-year trial period. The MSMVCD agrees to the following:**

1. To work in partnership with the West Marin communities on education about mosquito prevention and control;
2. To work in partnership with the West Marin communities to provide information and support for physical prevention methods.
3. To work in partnership with the West Marin communities in assisting them with drainage and other standing water issues; and
4. Only use *Bacillus thuringiensis* var. *israelensis* (Bt's) or *Bacillus sphaericus* (Bs), (Vectobac and Vectolex, the product names) in West Marin. In addition, these products will be used as a last resort. The MSMVCD will only use the 5 Bt's and 3 Bs products as noted in the attached document in West Marin. Two of these products are OMRI approved and will be given priority. The other 6 may be used if the MSMVCD deems necessary, with one exception: the MSMVCD will only use the OMRI approved products on or adjacent to organic farms.

The only exception to this agreement is if the MSMVCD, in conjunction with the Marin County Public Health Officer and California Department of Health Services-Vector Borne Disease Section declares a state of emergency, based on response levels as outlined in the Arbovirus Surveillance Response Plan. Under the authority of the Mosquito Abatement Act of 2003 (Canciamilla, AB 1454) any agreement with local jurisdictions will be null and void.
