Hi Jonna:

Thanks very much for your email, the news about the BEP retaining Stu Weiss of Creekside Science, and the most recent attachments from HT Harvey. I will pass this information on to the full BCPUD Board. We appreciate this update and look forward to our next discussion.

All the best,

Jennifer

**Subject:** BEP project description and update

hello jennifer, jack and kevin,  
as we head into 2024 we look forward to continuing working with you on our safety project. the latest attachments from HT harvey best describe the project scope including goals and budgeting.  
as you may know we have also retained stu weiss of creekside science to help assist us with how our town can best provide additional benefits for the monarchs who migrate and roost within the bolinas meta roost. we expect a preliminary assessment from stu in late january.  
we will share those findings and plan to have a team discussion at that time.  
best regards,
