## ESTIMATE

Services	qty	unit price	amount
Azolla, water primrose and pennywort harvesting from the pond and depositing the materail on the sout east corner of the pond.  We will be using the Anaconda booms and conveyors, Mobitrac (amphibious tractor machine) and hand tools. The azolla leyer is not as thick as before but thre are the other weeds that will consume a lot of time getting them out of there. We will get as much weeds as possible but be aware that some of the azolla will remain and some of the other weeds in between the cattails, after the cleaning the wind will pull or push some of the azolla out of the cattails.	1.0	\$18,750.00	\$18,750.00

Services subtotal: \$18,750.00

Subtotal	\$18,750.00
Tax (Anaconda 7.5%)	\$0.00

**Total \$18,750.00**
