

Leak Relief Request from Stephanie Martling and Laura Forrest: 410 Yucca

Hi there –

I called and spoke to one of you yesterday. I'd like to request retrieve from the latest water bill we received. We detected a leak in late November, we had BPUD out right away to open our water meter so we could shut off the water, make the repair to the pipe, and then they came back out and turned it back on. We had it fixed as soon as we noticed it pooling.

Our average bill for years has been \$10-\$30....so this came as a shock but makes sense given the leak.

Let me know next steps here, I think you said going to the Board with this request.

Thank you.

Stephanie Martling & Laura Forrest

Hi Stephanie,

Thank you for the email. Can you please provide me with the details related to which pipe was leaking and where it was located? Thanks.

It looks like our February regular board meeting is being moved to Monday, February 10th (we will be having a special meeting on February 19th in place of our regular meeting). As stated on the phone, the board requests that the homeowner, or a representative of the homeowner, attend the meeting when asking for leak relief. You can attend in person or via Zoom. Please let me know if you would like your request to be discussed at the February 10th meeting or the March 19th meeting.

Please also see BCPUD resolution 553, which explains the criteria for leak relief <https://bcpud.org/wp/wp-content/uploads/2020/07/Res-553-as-amended-061720.pdf>

Thanks Belle. It was a piece of pipe coming from the street meter line to our main line, we had to dig it out to find the leak and then have a plumber replace a piece of pipe.

I'm happy to join the Feb 10th meeting via Zoom, please send the info when you have a chance, thank you!

Stephanie Martling
