Bolinas Community PUD (CA)

Additional Payment and Bill Presentment Solution

DESCRIPTION	AMOUNT
SOFTBillPay Solution (SOFTtelPay + eBilling)	
With SOFTtelPay, your customers may pay their bills and see/hear basic account information 24/7 online or via toll-free automated phone call using debit/credit cards.	FREE
The utility may import the SOFTtelPay payments anytime and will receive daily emails (when applicable) with the total ACH amount deposited into the utility's bank account.	
The utility does not need a merchant account, does not incur transaction costs and does not handle card information (all seamlessly integrated with SOFTWater).	
The eBilling (bill presentment) solution allows your customers to register to view bills online, view payment and billing history, and opt out of mailed bills.	$100.00
New registrations import automatically into SOFTWater when payments are imported. Registered customers receive email notifications when new bills are ready to be viewed.	

Recurring eBilling Monthly Charges	
eBilling service, hosting, and support	$10.00

Make all checks payable to Intedata Systems, Inc. Thank you for your business!
