

Hi Terry,
The cost for that amount of water will be around \$900.00.

We unusually read the downtown area in January, but the actual quarter that they are to be read is the end of March, so you will not see a bill for this usage until April.

Thanks for letting us know what the circumstance was.

Subject: Re: Water use at 3 & 7 Wharf

Hi Belle,

There was a stuck toilet handle. I do not think it happened until a couple days around New Year's I caught it and got it repaired. No one was there over the holiday.

What are the repercussions?

Please let me know,
Terry
