

Resident Permit Parking Program Update – June 12, 2025

The district has allocated 100% of the permits to eligible residents. There are still a small number of permits waiting to be picked up from our office, however, there are no additional permits available at this time.

The County of Marin DPW has installed new signs in various locations along Brighton and Wharf Roads. As the Map indicates, the overnight parking restriction will be from 2am to 5am on specific sections of Brighton and Wharf. There are still areas on both of these streets where overnight parking is not restricted as long as the vehicle is shorter than 22 feet.

The Marin County Sheriff's office can now enforce the parking restrictions as the signs have been installed. The BCPUD suggests that all parking permit applicants please pick-up their stickers.

Reminder that the parking map below shows which areas are affected by the overnight restrictions.
